

If there was a better way... when would YOU want to know??

Ask yourself these questions...

- Is my Deferred Comp & DROP robbing me of retirement income?
- Is paying off my mortgage with extra principal payments wasting my home's value?
- Am I following the pack simply because I don't know that there is a better way?
- Would I like 50% more disposable income at retirement by eliminating unnecessary taxes? Am I planning my retirement or Uncle Sam's?

If you are not sure of the answers, plan to attend this workshop:
